Tech 2 Pathing

Most of the practical Tech 2 pathing is listed on the following pages for your reference. Paths are arranged alphabetically beginning with the end result—the final “string” displayed on the Tech 2 screen.

Depending on the vehicle, each path originates with one of 12 selections: Powertrain, Chassis, Body, Vehicle Control Systems, HVAC, Steering, Suspension, Brakes, Engine, Transmission/Transaxle, Body and Accessories, and Restraints.

Search for a specific string by clicking one of the letters above to take you closer to the end string you seek, or by clicking on the Adobe Reader binocular “Find” icon (usually located on the toolbar near the top of your screen) and keying in the exact phrase.

1-2 / 3-4 Shift Solenoid – Powertrain > Special Functions > Transmission Output Controls
1-2 / 3-4 Shift Solenoid – Powertrain > Special Functions > Transmission Output Controls > Solenoid Controls
1-2 Solenoid – Powertrain > Special Functions > Transmission Output Controls
1-2 Solenoid – Transmission/Transaxle > Automatic Transaxle > select optional question(s) if applicable > Special Functions > Powertrain Control Module
1-2 Solenoid – Transmission/Transaxle > Automatic Transaxle > Special Functions > Transmission Control Module
1-2 Solenoid – Transmission/Transaxle > Automatic Transmission > Special Functions > Transmission Control Module
1-4 Shift Lamp – Powertrain > Special Functions > Engine Output Controls > Dash Lamps
1-4 Shift Solenoid – Powertrain > Special Functions > Engine Output Controls
14V-42V Command – Powertrain > Special Functions > HPCM Output Controls
1st – Body > Instrument Panel Cluster > Special Functions > PRNDL Display
2 Wheel Steer Mode Lamp – Chassis > Rear Wheel Steering > Special Functions
